

# Isekai Ecommerce Store

Isekai Store is an E-Commerce website having all the important features. Customers will be able to buy computers, laptops and anything they desire at this website. Website is user-friendly interface, quick response times which will result in having good experience with customers

Having the CRUD operations implanted in it, as well as Facebook Chat, and using ajax in the creating of the site as well as outsourcing to create or generate a pdf document from the invoices , this site is a representation of everything we have been taught through our journey in Axsos academy. So let us take you step by step through our Isekai Site.

Using the log in and registration users who are new can easily register their account and proceed to the site

\*\*\*\*\*

**New Password:**

\*\*\*\*\*

 Password must be at least 6 characters.

**Confirm New Password:**

\*\*\*\*\*

 Re-Type new password.

Update

---

going back to users account page we have the address the address is where the items in the cart are going to be shipped at

[Your Account](#) > [Your Addresses](#)

## Your Addresses

Add address

Adding an address would require country and region, name and other details that are important to anyone who want to buy something and have it specifically ordered to a location it has a validation as well and the user can add more than one address

[Your Account](#) > [Your Addresses](#) > [New Address](#)

## Add a new address

Or pick up your packages at your convenience from our self-service locations.

Country/Region

Full name

Mobile number

May be used to assist delivery

PIN code

Flat, House no., Building, Company, Apartment

Area, Colony, Street, Sector, Village

Landmark

Town/City

### Add delivery instructions

Preferences are used to plan your delivery. However, shipments can sometimes arrive early or later than planned.

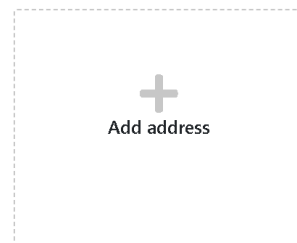

Address Type

Add address

[Your Account](#) > [Your Addresses](#)

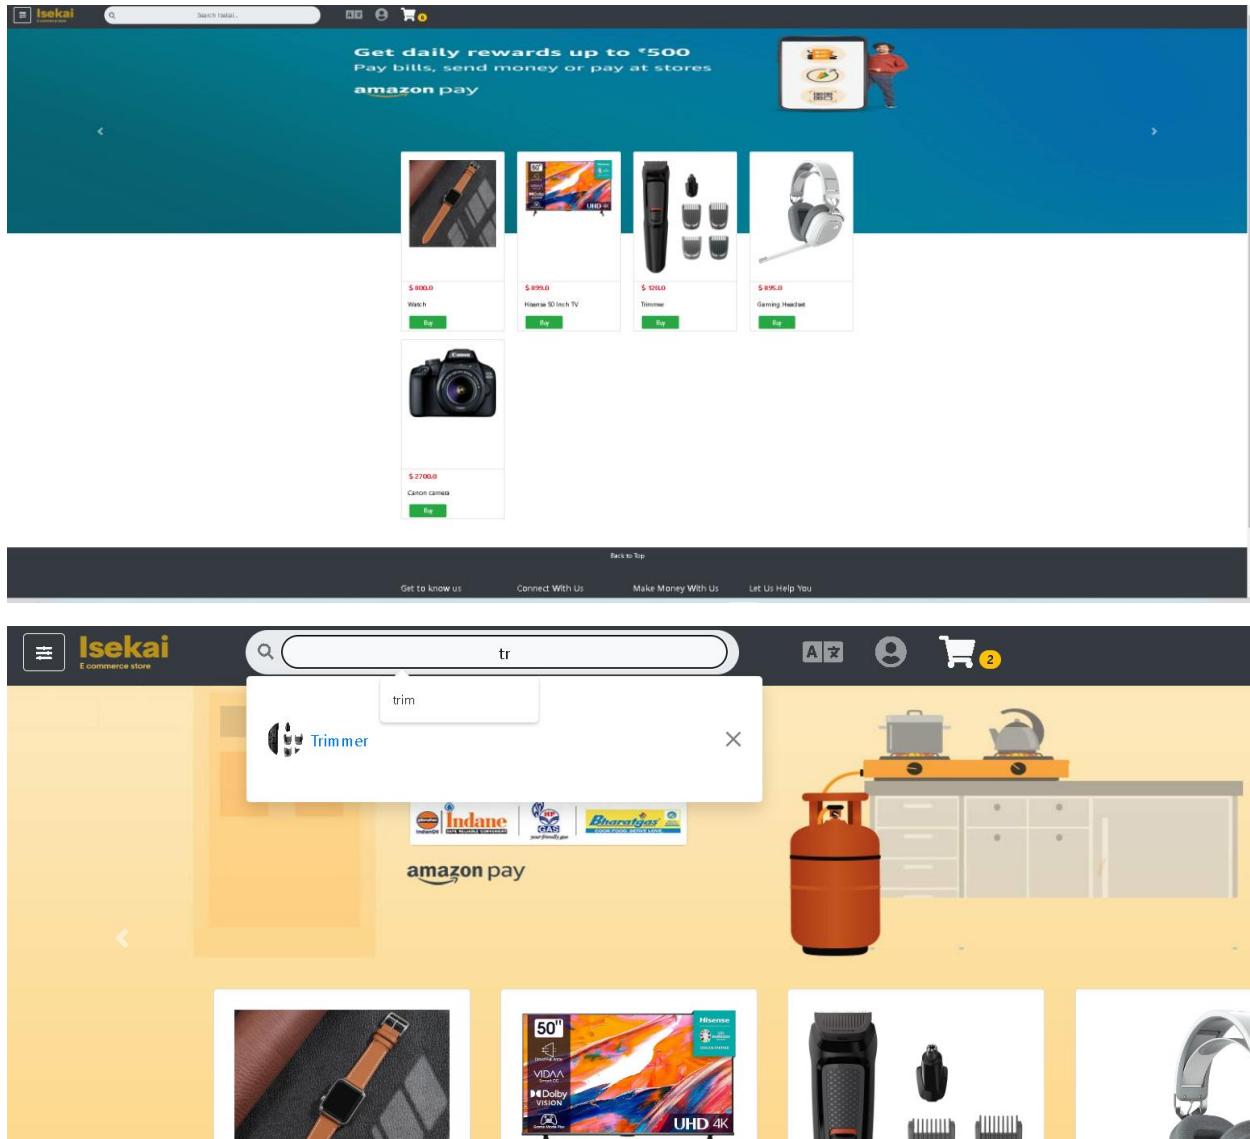

## Your Addresses

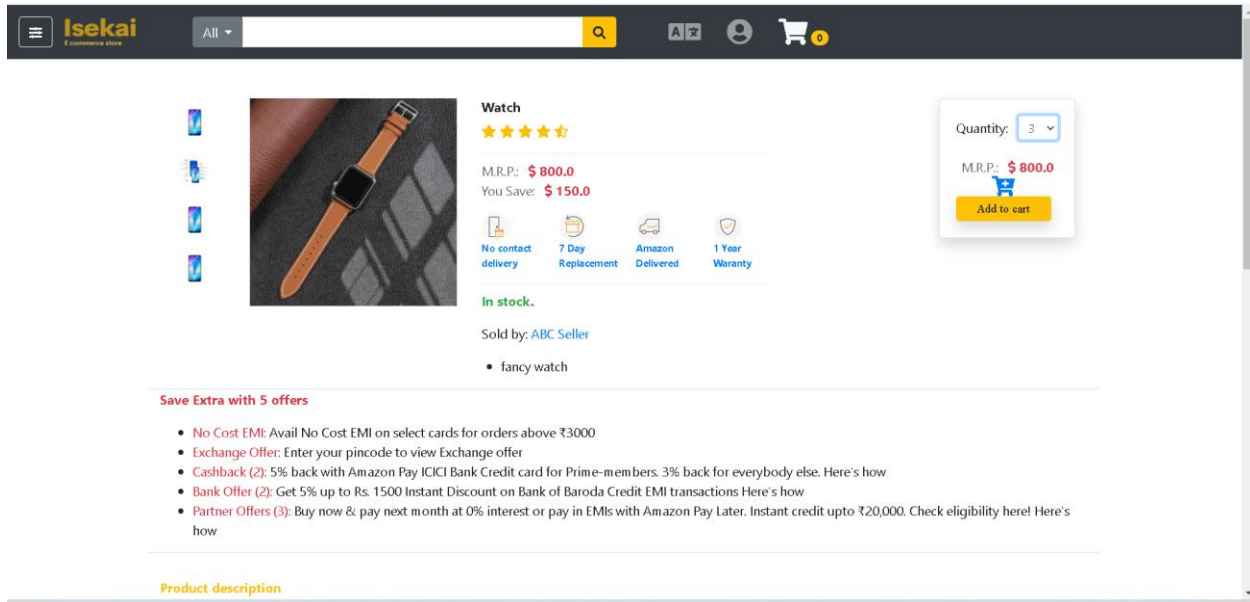

Default:
<b>Full_Name: Aya Ghosheh</b>
Country: Palestine
Town: Ramallah
Apartment: house no.74
Street: Al-bireh
Landmark: Near The Company
PIN_code: 753148
Phone Number: 0595588888

Default:
<b>Full_Name: Aya Ghosheh</b>
Country: Palestine
Town: Ramallah
Apartment: house no.4
Street: Al-bireh
Landmark: neat the hospital
PIN_code: 7896544
Phone Number: 0599252525

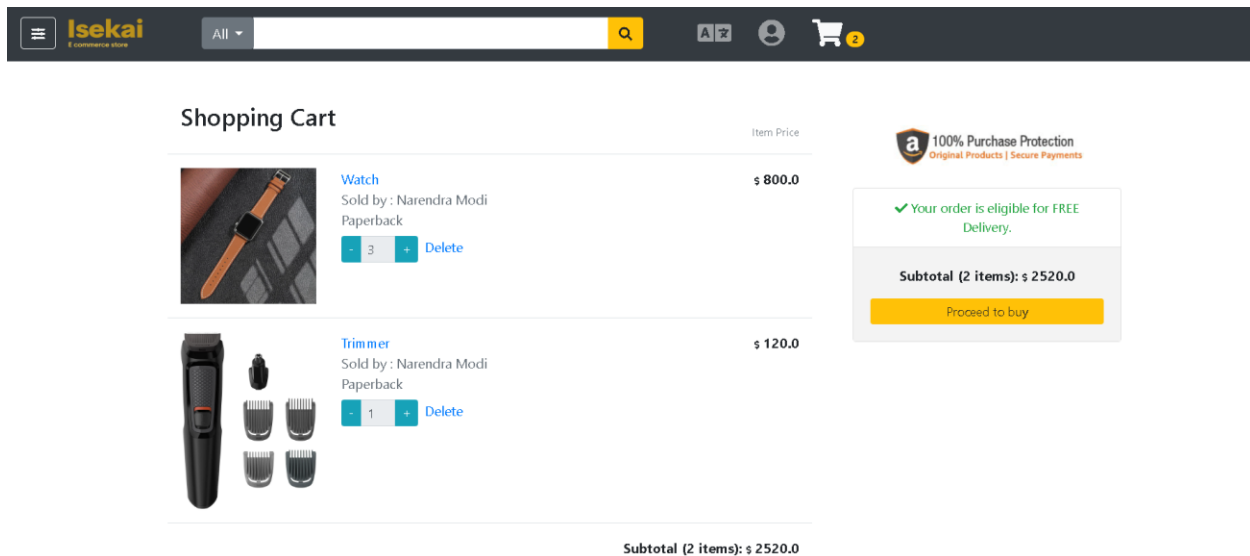

going back to the items displayed in the main page our view is like this the user can see all the items displayed in the main page and view them as desired and there is a search bar that is full functioning with Ajax that display the items of the search in a drop down manner.

Viewing a specific item and adding it to the cart with a targeted quantity as well can be done through viewing the item:

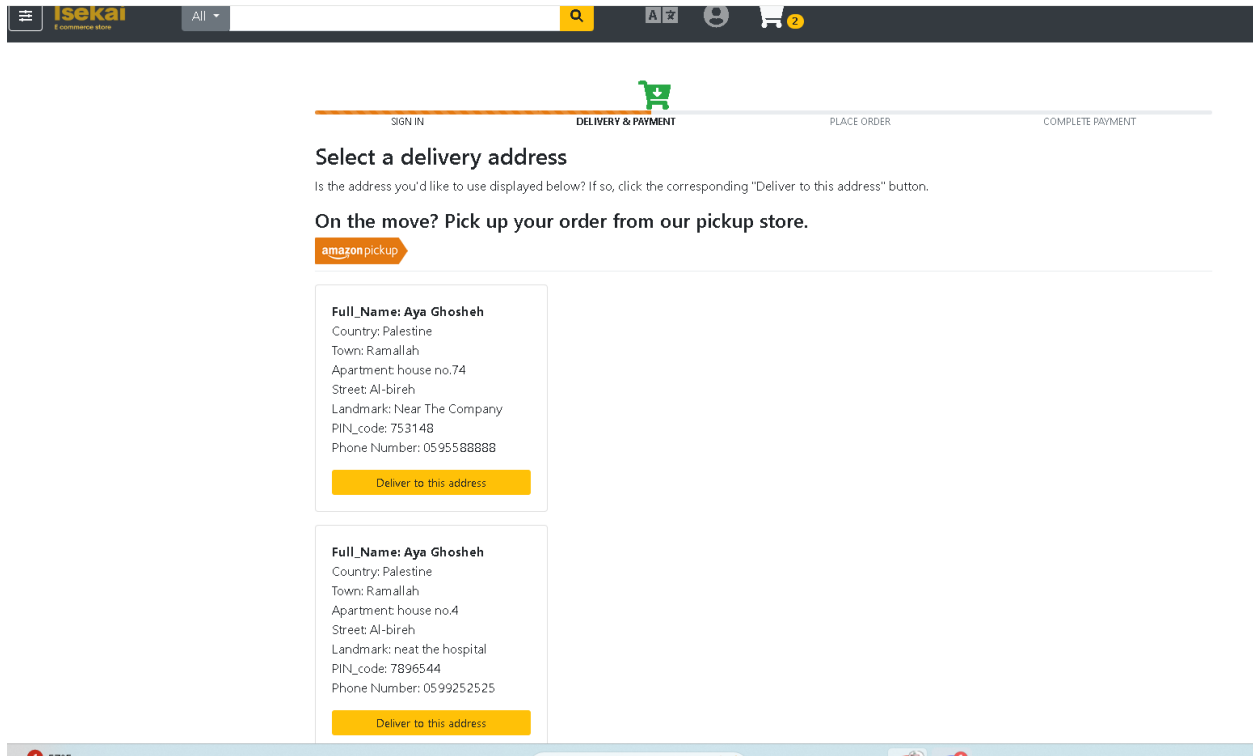

When adding it goes to the cart and of course you can add multiple items it shows how much of itmes it has on the navigation bar next to the icon of the cart of how many items the cart has when pressing on the cart items are displayed in this manner as well as the sum of the items inside it

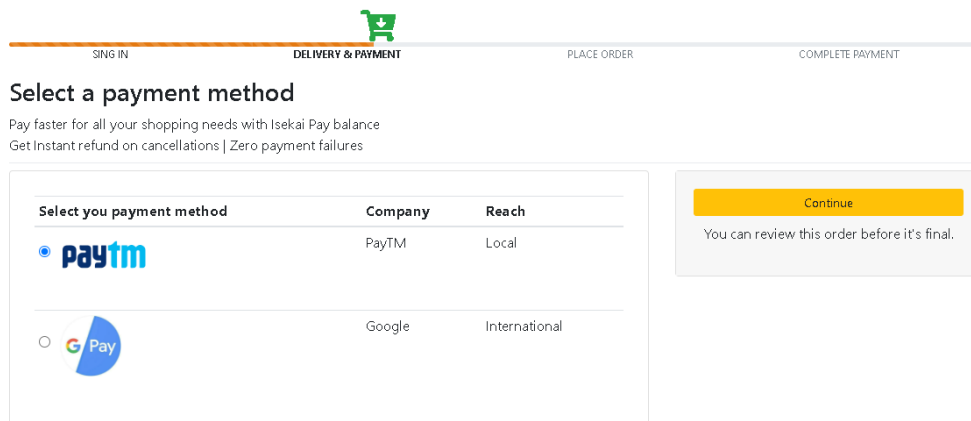

Proceeding to buy button would take the user to the address and payment method

Giving the user the ability to choose which address if they have entered more than one previously in their account

Once the address is chosen the payment method would be chosen as well

After pressing continue you would be able to view the items all in a summery form

Delete Order

As mentioned before everything has a validation the card number must be at least 16 numbers the date 5 and the cvc 3 and so on as you can see the chosen method of payment previously chosen is displayed here and then when the user fill out the information the cart would be emptied out and a pdf would be downloaded to the users profile containing all the necessary data from items to address to payment that can be saved into the user account however assuming the user has misplaced it they can go to the

account and see what they have previously bought and of course if the user choses they can delete the order before it s paid for.

Processing the payment would display this

127.0.0.1:8000/invoice
